

2 April 2003.
The world's first Smart Area Weapon
proves itself in combat.

Our Winning Technology has helped the U.S. Air Force develop a weapon so smart, it leaves clean battlefields.

In combat sorties from 2 April onward, SFW (Sensor Fuzed Weapon) from Textron Systems took out multiple Iraqi combat vehicles with one highly-advanced, air-delivered package containing 40 smart warheads.

Actual battle damage is classified. But one SFW fact is not. Minutes after impact, Iraqi tank commanders and crews surrendered in droves, according to U.S. Marines.

All that was left was a clean battlefield. Because unexploded SFW warheads are rendered harmless within 2 minutes of deployment.

For further information on the world's only Smart Area Weapon, contact Textron Systems at 1-978-657-2100. Or visit www.systems.textron.com now.
